List of figures

Figure A-1: Outline of the thesis ................................................................. 8
Figure B-1: Example of a structural equation model ........................................ 23
Figure B-2: Purposes of statistical (SEM) techniques ...................................... 26
Figure B-3: PLS algorithm ............................................................................ 30
Figure C-1: Theory of reasoned action .......................................................... 48
Figure C-2: Research model .......................................................................... 52
Figure C-3: Results of structural model analysis – main research model .......... 59
Figure C-4: Results of structural model analysis – main research model and alternative model ................................................................. 66
Figure D-1: Package of management control systems ...................................... 84
Figure D-2: Framework for the effects of incentives on efforts and performance .................................................................................. 86
Figure D-3: Research model .......................................................................... 94
Figure D-4: Results of structural model analysis – main research model ........ 107
Figure D-5: Results of structural model analysis – alternative models ............ 116
Figure D-6: Results of structural model analysis – alternative model ............ 118
