# List of Tables

Table 1.1: Use of Financial Services ............................................................... 37  
Table 1.2: Descriptive Statistics ..................................................................... 40  
Table 1.3: Multivariate Probit Results on the Use of Financial Services ...... 49  
Table 2.1: Sources of Risk in Sri Lanka .......................................................... 61  
Table 2.2: Summary Statistics: Full Sample and Separate Use of Savings Products, Loans and Insurance ......................................... 65  
Table 2.3: Summary Statistics: Use of Zero, One, Two or Three Microfinancial Services .................................................................. 67  
Table 2.4: Number of Insured Households Associated with Insurance Providing MFI ................................................................................ 68  
Table 2.5: Definition of Dependent Variables ................................................ 69  
Table 2.6: Use of Savings Products, Loans and/or Insurance ......................... 70  
Table 2.7: Use of Zero, One, Two or Three Financial Services ..................... 70  
Table 2.8: Outcome of Separate Probit Models for the Use of Financial Services ........................................................................................... 73  
Table 2.9: Ordered Probit Model on the Uptake of Financial Services (I) ..... 77  
Table 2.10: Ordered Probit Model on the Uptake of Financial Services (II) ... 79  
Table 2.11: Probit Models on the Uptake of Financial Services ...................... 80  
Table 3.1: Number of All Insured Clients and Insured Clients Surveyed in the Five MFIs ............................................................................. 99  
Table 3.2: Summary Statistics: Life Insurance Buyers vs. Non-Buyers ....... 103  
Table 3.3: Self-Reported Reason to Purchase Insurance .............................. 104  
Table 3.4: Estimates of Probit Regression Model of Life Insurance Uptake ........................................................................................... 108  
Table 3.5: Estimates of Tobit Regression Models on Amount of Life Insurance Premiums ..................................................................... 111  
Table 3.6: Estimates of Probit Regression Model of Life Insurance Uptake (Other Specifications) ..................................................... 112  
Table 4.1: Characteristics of Microinsurance Providers in Sri Lanka .......... 127  
Table 4.2: Institution Membership and Microinsurance Participation Conditional on Membership in Sri Lanka .................................... 135  
Table 4.3: Multivariate Probit Results on the Type of Insurance for Sri Lanka (I) .................................................................................. 138  

Table A. 1: Definition of Explanatory Variables ............................................ 145  
Table A. 2: Subjective Probability of Risk Index by Factor Analysis .......... 147
Table A. 3: Binary Probits on the Use of Financial Services ......................... 148
Table A. 4: Multivariate Probit Results for Different Categories of Insurance ... ................................................................. 149

Table B. 1: Definition of Explanatory Variables ............................................ 150
Table B. 2: Subjective Probability of Risk Index by Factor Analysis............. 152
Table B. 3: Correlation Matrix of Explanatory Variables .............................. 153

Table C. 1: Definition of Explanatory Variables ............................................ 155
Table C. 2: Summary Statistics: Insurance Buyers vs. Non-Buyers ............... 157
Table C. 3: Estimates of Probit Regression Model of Insurance Uptake ...... 158

Table D. 1: Definition of Explanatory Variables for Sri Lanka ...................... 159
Table D. 2: Summary Statistics: Insurance Buyers vs. Non-Buyers ............... 161
Table D. 3: Summary Statistics: Life, Health and other Insurance Buyers vs. Non-Buyers ............................................................... 162
Table D. 4: Binary Probits on Insurance Participation for Sri Lanka ............. 163
Table D. 5: Multivariate Probit Results on the Type of Insurance for Sri Lanka (II) ............................................................................. 164
